WHOLESALE PRICE LIST

OF

EVERGREENS

This list is issued in advance of our regular Wholesale Price List for the benefit of those who wish to order early.

Weather conditions are admirable with us, for immediate shipments.

Cost of box and packing are additional to prices quoted.

Evergreens

In comparing the prices of our evergreens with those of other nurseries keep in mind that our plants are frequently transplanted in order to secure a good fibrous root system, they are sheared from time to time as needed, consequently they are all bushy, well formed plants.

All of our evergreens are balled and burlapped at the prices quoted and the burlap is sewed on, not just tied with rope.

These heavy specimen American Arbor Vitae were transplanted three years ago, and carry a large ball of earth. They were closely sheared and are now very compact plants. Most of these plants spread from 4 to 5 feet at the ground, and are mostly sheared to a point at the top.

These plants are a part of the heavy stock listed above but they are bare on one side ranging from 1½ ft. to 3 ft. from the ground, but in other respects they are as good as the specimens listed above, but on account of this defect we are offering them at a less price than the "Specimen" plants.

When these plants are ordered it must be specified in the order, "Bare on one side" otherwise the specimen plants will be shipped and priced accordingly.
